Contents

Vol. 27, No. 1

Publisher's Note v

Guest Editorial
New technology for cleaner air
P.H. Abelson (Washington, DC, U.S.A.) 1

Comparison of water-based physical separation processes for U.S. tar sands
M. Misra (Reno, NE, U.S.A.) and J.D. Miller (Salt Lake City, UT, U.S.A.) 3

Relative efficiency of phenol–water–ether mixture and nitrobenzene system for deasphalting "low-asphaltic" crude oil residue
V.A. Adewusi, B. Ademodi and T. Oshinowo (Ile-Ife, Nigeria) 21

Effect of iron and sulphur dosage in coal liquefaction: Modelling and optimisation
R. Das Gupta, J.R. Mitra, B.K. Dutta, U.N. Sharma, A.K. Sinha and D.K. Mukherjee (Dhandbad, India) 35

Solvent extraction of Pakistani coals. I. Characterization and potential use of residues
M. Hasan and A. Sher Bhatti (Karachi, Pakistan) 45

Gasification in dry air of coals extracted with tetrahydrofuran
J. Rivera-Utrilla, A.J. López-Peinado (Madrid, Spain), F. Carrasco-Marin, J.C. Expósito-Cáceres and C. Moreno-Castilla (Granada, Spain) 57

Steam gasification in a pressurized spouted bed reactor
T.A. Sue-A-Quan, A.P. Watkinson, R.P. Gaikwad, C.J. Lim and B.R. Ferris (Vancouver, BC, Canada) 67

Compositional changes in the mild gasification liquids produced in the presence of calcium compounds
M.R. Khan (Beacon, NY, U.S.A.) and K. Seshadri (Morgantown, WV, U.S.A.) 83

Adsorption properties of fly ash particles for NO_x removal from flue gases
G.Q. Lu and D.D. Do (St. Lucia, Qld, Australia) 95

Guide for Authors 109

Vol. 27, No. 2

Catalytic conversion of crude tall oil to fuels and chemicals over HZSM-5: Effect of co-feeding steam
R.K. Sharma and N.N. Bakhshi (Saskatoon, Sask., Canada) 113

Effect of coke and catalyst structure on oxidative regeneration of hydroprocessing catalysts
E. Furimsky (Ottawa, Ont., Canada) 131

Studies related to the structure and reactivity of coals: 20. Coprocessing of Victorian brown coals with petroleum residues and with a coal tar distillate
A. Eamsiri (Bangkok, Thailand), F.P. Larkins (Hobart, Tasmania, Australia) and W.R. Jackson (Clayton, Vic., Australia) 149

Hydroprocessing a western Kentucky tar sand bitumen alone and coprocessing with a western Kentucky #9 coal. Catalytic studies in a 1/8 tpd pilot plant
R.J. Medina, R.A. Keogh, W.P. Barnett, D.E. Sparks, R.L. Spicer and B.H. Davis (Lexington, KY, U.S.A.) 161

Development of a reliable coal oxidation (weathering) index - Slurry pH and its applications
Y. Yun and H.L.C. Meuzelaar (Salt Lake City, UT, U.S.A.) 179

Hydrogen transfer from decalin to coal macerals
J. Pajak (Gliwice, Poland) 203

The influence of atomizing air parameters on soot formation in heavy liquid hydrocarbon flames
J.A. Koziński (Kraków, Poland) 215

Vol. 27, No. 3

Liquefaction coprocessing with synthesis gas
A. Del Bianco, E. Girardi and M. Anelli (Milan, Italy) 235

Gasification of high-ash Indian coals for power generation
R.K. Iyengar and R. Haque (New Delhi, India) 247

Inhibiting abilities of hydroaromatics against deterioration of hydrocarbon products. Part 1. Inhibition of thermal deterioration and its application to oil products
J. Kubo (Yokohama, Japan) 263

Demetallization of heavy vacuum fraction
S. Grygłewicz, M. Rutkowski and M. Steiniger (Wrocław, Poland) 279

Desulfurization of single coal macerals
E.J. Hippo and J.C. Crelling (Carbondale, IL, U.S.A.) 287

Chemical changes of coal matter after treatment with ethylenediamine
J. Černý and H. Pavlíková (Prague, Czechoslovakia) 307
